

# PROGRAMME

## CRITICAL INFRASTRUCTURE PROTECTION AND RESILIENCE: TRANS BORDER CHALLENGES

Monday 18 – Wednesday 20 February 2008

### 898<sup>th</sup> WILTON PARK CONFERENCE

*What is critical infrastructure in an interdependent global economy? What issues surround transnational resilience and protection, and the security of cross-border infrastructure links? What are the prospects for international and institutional cooperation? How can responsibilities be divided between state, civil authorities and the private sector? What exactly constitutes 'best practice' internationally?*

### MONDAY 18 FEBRUARY

1300-1430 Buffet lunch available

1500 **Welcome to Wilton Park**  
**Mark SMITH**  
Programme Director, Security and Defence, Wilton Park, Steyning

1515-1645 1 **WHAT IS AT RISK?**  
*What is critical infrastructure in an interdependent global economy? What are critical infrastructures? The distinction between criticality of asset (e.g. national grid) and criticality of consequence of attack.*

**Judy BAKER**  
Senior Manager, Strategy, Communications & Policy, Centre for the Protection of National Infrastructure, (CPNI) London

**Christian SOMMADE**  
Executive Director, French High Committee for Civil Defence, Paris

1645-1715 Tea

1715-1845 2 **WHAT IS THE THREAT?**  
*What are the more likely sources of threat: state action, terrorism, internal instability in states, cyber-crime, natural disasters like pandemics? How much can intelligence agencies communicate about likely threats? Do states and private sector actors see threats alike? How can a balance be struck between what attack is more likely and what attack would have the worst impact? How much risk are we prepared to live with?*

**Sandra BELL**  
Director, Department of Homeland Security & Resilience, Royal United Services Institute for Defence and Security Studies, (RUSI) London

**Bruce MANN**  
Head, Civil Contingencies Secretariat, Cabinet Office, London

1930 Drinks Reception  
2000 Dinner

## TUESDAY 19 FEBRUARY

- 0915-1045 3 **PROTECTION AND RESILIENCE ACROSS EUROPE (I)**  
*What exactly constitutes 'best practice' internationally? What are the challenges of implementing transborder CIP measures? What are the relative merits of bilateral approaches to CIP and multilateral ones like EPCIP, and how can the correct mix be implemented?*
- Heiko BORCHERT**  
Managing Director, Borchert & Co Consulting and Research, Lucerne
- Peter GATTINESI**  
Project Manager, Home Office, London
- 1045-1130 Coffee and photograph
- 1130-1300 4 **PROTECTION AND RESILIENCE ACROSS EUROPE (II): ENERGY SECURITY**
- Paul DOREY**  
Vice President of Digital Security & Chief Information Security Officer, BP plc, London
- Thierry LEGENDRE**  
Policy Adviser, Policy Planning Unit, Office of the Secretary General, NATO, Brussels
- 1300 Lunch
- 1515-1645 5 **SECTORS IN CRITICAL INFRASTRUCTURE**  
*What are the key cross-border issues in each sector? What are the interdependencies between sectors and between states?*
- TRANSPORT:**  
**Niki TOMPKINSON**  
Director, Transport Security & Contingencies Directorate, TRANSEC, Department of Transport, London
- Roderick Van VOORST**  
Unit for Protection of Critical Infrastructure, Directorate General for Energy and Transport, European Commission, Brussels
- 1645-1715 Tea
- 1715-1845 6 **SECTORS IN CRITICAL INFRASTRUCTURE**  
*What are the key cross-border issues in each sector? What are the interdependencies between sectors and between states?*
- TELECOMS/IT:**  
**Mark HUGHES**  
Group Security Director, British Telecom, London
- Maarten BOTTERMAN**  
Director, Global Networked Knowledge Society (GNKS Consult), Rotterdam
- 1930 Dinner

## WEDNESDAY 20 FEBRUARY

- 0915-1045     7     **UNDERWRITING AND INSURANCE**  
*What is the role of underwriters and insurance in critical infrastructure protection? How can they reliably assess expected losses or liabilities?*
- Kevin JARMAN**  
Chief Executive, Matthews Daniel International (London) Ltd, London
- 1045-1115     Coffee
- 1115-1245     8     **FUTURE PATTERNS**  
*What are the implications of climate change, new technologies, and shifting patterns of demand? Are infrastructures likely to diversify and become more geographically spread, or is Europe better advised to pursue greater self-reliance?*
- Patrick LAGADEC**  
Director of Research, Ecole Polytechnique, Paris
- 1245             Lunch
- 1415             Participants Depart
